No. 508F.

No. 509F.

What our Swords are Noted for.—The Armstrong Swords are distinguished throughout the United States for their fine finish and superior quality. Even the cheapest swords we list are well and durably made, though it must not be expected that our cheapest swords are as finely and elaborately finished as those of higher prices.

Undress Scabbards.—The price of an undress scabbard to go with any military sword will be quoted on application, the price varying according to the quality and style of the sword. An undress scabbard may be had in place of a dress scabbard without extra charge.

No. 510F.

SWORD BELTS.

U. S. REGULATION.—A waist belt not less than one and a half nor more than two inches wide, with slings of same material as the belt, with a hook attached to the belt on which to hang the sword. A gilt rectangular plate two inches wide, with a raised bright rim; a silver wreath of laurel encircling the "Arms of the United States;" eagle, shield, scroll edge of cloud, and rays bright; the motto "E Pluribus Unum" upon the scroll; stars also of silver according to pattern.

For General Officer.—Of red Russia leather, with three stripes of gold embroidery.

For all Field Officers.—One broad stripe of gold lace on black enamelled leather.

For all Officers of the General Staff and Staff Corps below the rank of Field Officer.—Four stripes of gold, interwoven with black silk, on black enamelled leather.

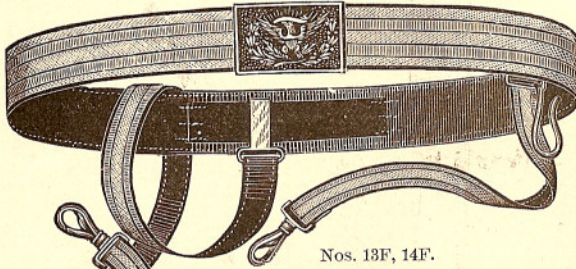

For Company Officers of Infantry, Artillery, and Cavalry.—Four stripes of gold lace, interwoven with silk of the same color as the facings of their arms of service, on black enamelled leather.

On undress duty Officers may wear a plain black leather belt.

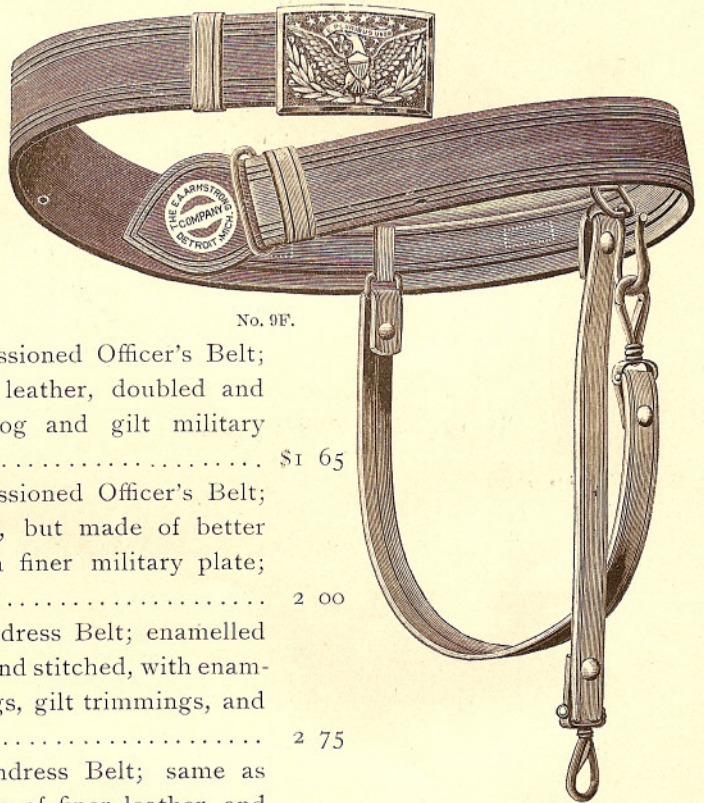

Note This.—When ordering belt send measure taken around waist, over coat.

Nos. 10F, 11F, 12F.

No. 33F.	Stud; gilt; solid; each.....	\$0 12
No. 34F.	Stud; gilt, with screw back; each.....	15

NEW LACE ON OLD BELTS.

The old lace on a belt may be removed and the old leather re-covered with new lace. When we re-cover a belt with new lace we also clean the old metal trimmings, so that the re-covered belt looks almost as well as a new one. The convenience and economy of having belts re-covered will be appreciated by officers who have been promoted, and by those whose belts have become badly worn.

Our prices for re-covering belts are as follows:

For re-covering field officer's belt and slings with best gilt wire lace.....	\$5 00
For re-covering field officer's belt and slings with real gold wire lace.....	10 00
For re-covering line officer's belt and slings with best gilt wire and silk lace,	4 00
For re-covering line officer's belt and slings with real gold wire and silk lace,	10 00

HELMETS.

U. S. REGULATION.—*Helmets for all Mounted Officers of the Line.*—Body: Of cork or other suitable material, covered with black cloth, or of black felt, at the option of the wearer. Trimmings: Cords and tassels, top piece and plume socket, chain chin-strap and hooks, eagle with motto; crossed cannon, rifles or sabres, all gilt, with the number of the regiment on the shield in white; plume of buffalo hair, white for infantry, yellow for cavalry, and red for artillery.

Helmets for all Officers of the Line not Mounted.—Same as above except that the trimmings are as follows: Top piece, spike, chain chin-strap with hooks and side buttons, eagle with motto, crossed rifles or cannon, all gilt, with number of the regiment on the shield in white.

Officers' Summer Helmets.—Body: Of cork, covered with white facing cloth; top piece, spike, chin chain-strap, and hooks, all gilt.

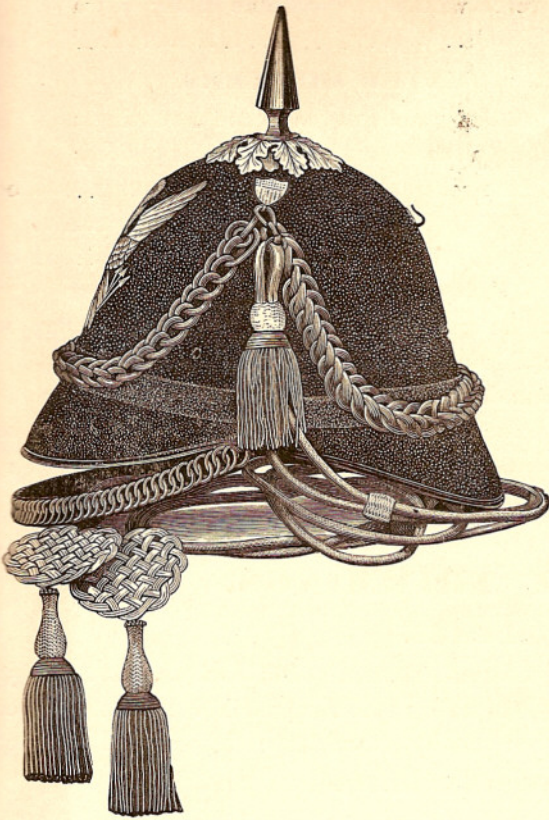

The helmet cords are attached to the left side of the helmet and come down to the left shoulder, where they are held together by a slide. One cord then passes to the front and the other to the rear of the neck, crossing upon the right shoulder and passing separately around to the front and rear of the right arm, where they are again united and held together by a slide under the arm. The united cords then cross the breasts and are looped up to the upper button, on the left side of the coat.

No. 58F.

SHOULDER KNOTS.

U. S. REGULATION.—*For Officers of the Adjutant-General's Department.*—Of gold cord, one-fourth of an inch in diameter, Russian pattern, on dark blue cloth ground; insignia of rank embroidered on the cloth ground of the pad; a solid shield of silver on the centre of the pad (except for a Colonel and Assistant Adjutant-General, who will wear it on the bouillon of the knot midway between the upper fastening and the pad); an aiguillette of gold cord, one-fourth of an inch in diameter, according to pattern, to be worn on the right shoulder knot, the loop crossed on top of the right arm above the elbow, and the cords fastened, before buttoning, to the top and second button on the right side of the coat. The aiguillette, instead of being permanently attached to the shoulder knot, may be made separate, so as to be attached to the coat or knot, underneath the knot, by means of a strap or tongue passing through the lower fastenings of the knot.

For Officers of the Inspector-General's Department.—Same as for officers of the Adjutant-General's Department, but with sword and fasces crossed and wreathed, according to pattern, in place of the silver shield.

For Officers of the Judge Advocate General's Department.—Same as for the officers of the Adjutant-General's Department, without the aiguillette and without the shield, but with sword and pen crossed and wreathed, according to pattern, embroidered in silver on the cloth ground of the pad (except for a Colonel and Assistant Judge Advocate General, who will wear the device made of solid silver on the knot midway between the upper fastening and the pad).

For Officers of other Staff Corps.—Same as for officers of the Adjutant-General's Department, without the aiguillette and without the shield, but with initial letters or device of corps on the cloth ground of the pad, as follows:

Quartermaster's Department.— Q. D.

Subsistence Department.— S. D.

Medical Department.— M. D.

Pay Department.— P. D.

(Letters to be embroidered in silver old English characters.)

Engineer Corps.—A silver turreted castle.

Ordnance Department.—A shell and flame in silver embroidery, according to pattern.

Signal Corps.—Two crossed signal flags and a burning torch, in gold and silver embroidery, according to pattern.

For Aides-de-Camp to Major and Brigadier Generals.—The shoulder knot of their corps or regiment, with aiguillette attached.

For Officers of Cavalry, Artillery, and Infantry.—Of the same pattern as for Staff Corps, but on cloth of the same color as the facings of their arm, with number of regiment embroidered in silver, and insignia of rank on the cloth ground of the pad, according to pattern.

For Regimental Adjutants.—Of same pattern as for officers of their arm, with aiguillettes attached.

Whenever the full dress is worn by officers on duty, the prescribed epaulettes or shoulder knots will be attached.

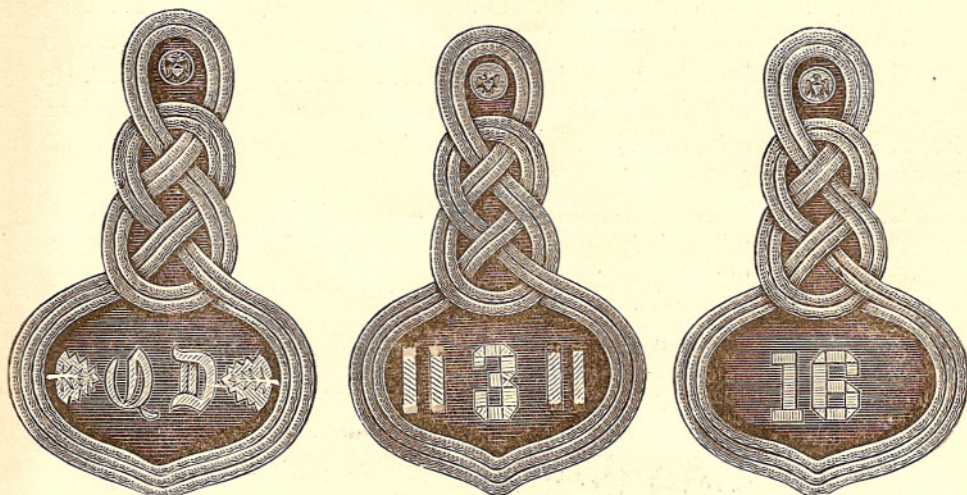

Insignia of Rank.—For a Colonel, a silver-embroidered eagle at the centre of pad; for a Lieutenant-Colonel, two silver-embroidered leaves, one at each end of pad; for a Major, two gold-embroidered leaves one at each end of pad; for a Captain, two silver-embroidered bars at each end of pad; for a First Lieutenant, one silver-embroidered bar at each end of pad; for a Second Lieutenant, plain.

 When ordering Shoulder Knots always state arm of service, rank, and number of regiment.

No. 240F. Shoulder Knots; U. S. army pattern; fine gilt wire cord; insignia of rank embroidered in gilt or silver-plated bouillon, and number of regiment in silver-plated bouillon; patent fastenings:

Changes on Shoulder Knots for Colonel	3 65

Our prices for putting new cloth centres of extra fine quality in shoulder knots, these centres bearing the regulation embroidery in real gold or silver bouillon, are as follows:

Changes on Shoulder Knots for Second Lieutenant	\$2 35
Changes on Shoulder Knots for First Lieutenant	2 85
Changes on Shoulder Knots for Captain	3 25
Changes on Shoulder Knots for Major	3 60
Changes on Shoulder Knots for Lieutenant-Colonel	3 60
Changes on Shoulder Knots for Colonel	4 00

SHOULDER STRAPS.

U. S. REGULATION.—*For the General of the Army.*—Dark blue cloth one and three-eighths inches wide by four inches long, bordered with an embroidery of gold one-fourth of an inch wide; two silver-embroidered stars of five rays each, and gold-embroidered “Arms of the United States” between them.

For a Lieutenant-General.—The same as for the General, except there will be three silver-embroidered stars of five rays, one star on the centre of the strap, and one on each side equidistant between the centre and outer edge of the strap, the centre star to be the largest.

For a Major-General.—The same as for a Lieutenant-General, except that there will be two stars instead of three; the centre of each star to be one inch from the outer edge of the gold embroidery on the ends of the strap, both stars of the same size.

For a Brigadier-General.—The same as for a Major-General, except that there will be one star instead of two; the centre of the star to be equidistant from the outer edge of the embroidery on the ends of the strap.

For a Colonel.—The same size as for a Major-General, bordered in a like manner with an embroidery of gold; a silver-embroidered spread eagle on the centre of the strap, two inches between the tips of the wings, having in the right talon an olive branch, and in the left a bundle of arrows, an escutcheon on the breast as represented in the “Arms of the United States;” cloth of the strap as follows: for the General Staff and Staff Corps, dark blue; infantry, white; artillery, scarlet; cavalry, yellow.

For a Lieutenant-Colonel.—The same as for a Colonel according to corps, omitting the eagle and introducing a silver-embroidered leaf at each end, each leaf extending seven-eighths of an inch from the end border of the strap.

For a Major.—The same as for a Colonel according to corps, omitting the eagle and introducing a gold-embroidered leaf at each end, each leaf extending seven-eighths of an inch from the end border of the strap.

For a Captain.—The same as for a Colonel according to corps, omitting the eagle and introducing at each end two silver-embroidered bars of the same width as the border, placed parallel to the ends of the strap at a distance between them and from the border equal to the width of the border.

For a First Lieutenant.—The same as for a Colonel according to corps, omitting the eagle and introducing at each end one silver-embroidered bar of the same width as the border placed parallel to the ends of the strap at a distance from the border equal to its width.

For a Second Lieutenant.—The same as for a Colonel according to corps, omitting the eagle.

When Worn.—The Shoulder Strap will be worn whenever the epaulet or shoulder knot is dispensed with.

Special Note.—When ordering Shoulder Straps state rank and arm of service.

No. 260F. Shoulder Straps; large size, extra heavy; best quality of cloth centres; best embroidery in real gold and real silver bouillon.

EPAULETS.

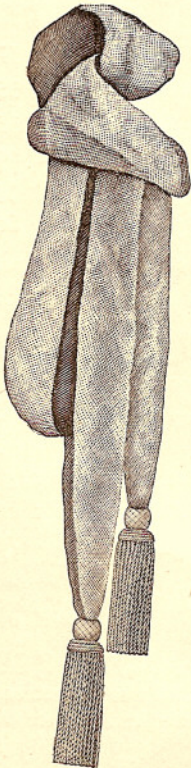

U. S. REGULATION.—*For the General of the Army.*—Of gold, with solid crescent; device—two silver-embroidered stars, with five rays each, one and one-half inches in diameter, and the “Arms of the United States” embroidered in gold placed between them.

For a Lieutenant-General.—Of gold, with solid crescent; device—three silver-embroidered stars of five rays each, respectively one and one-half, one and one-quarter, one and one-eighth inches in diameter. The largest placed in the centre of the crescent; the others placed longitudinally on the strap and equidistant, ranging in order of size from the crescent.

For a Major-General.—Same as for a Lieutenant-General, omitting the smallest star, and the smallest of the two remaining stars placed in the centre of the strap.

For a Brigadier-General.—Same as for a Lieutenant-General, omitting all but the largest star. The Adjutant-General and Inspector-General to wear an aiguillette, with the right epaulet, according to pattern.

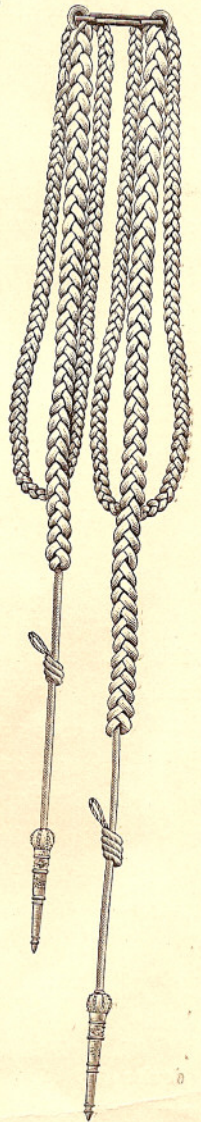

No. 270F. Epaulets; best quality gilt; regulation size; insignia of rank finely embroidered in fine bouillon; furnished in japanned tin case; price, per pair, \$18.00 to \$30.00, according to rank. Write for special prices.

☞ We can furnish still cheaper Epaulets when desired. Special prices of all grades of Epaulets for any rank furnished on application.

CHEVRONS.

U. S. REGULATION.—Cloth Chevrons.—The rank of non-commissioned officers will be marked on the blouse and overcoat by chevrons of cloth, and on the uniform dress-coat by chevrons of gold lace. The chevrons will be worn points down. Those upon the uniform dress-coat and blouse will be above the elbow; those on the overcoat will be below the elbow, with the points one-half inch above the cuff.

The cloth chevrons to be of the same color as the facing of the uniform dress-coat, except those worn on the overcoat by infantry, which will be of dark blue cloth. The Engineers' chevrons are to be piped with white cloth. The bars of the chevrons will be one-half inch wide, separated by silk stitching, white for Hospital Steward, Acting Hospital Steward, Engineers, and for overcoats for infantry, black for all others; the upper and lower edges to be finished or bound with a similar stitching. The arms of the chevron bars to be six to seven inches long, to be the arcs of a circle of about twenty-five inches radius, and to meet at an angle of about ninety-six degrees; distance between extreme outer ends about nine inches.

Rank will be indicated as follows:

For a Sergeant-Major.—Three bars and an arc of three bars.

For a Quartermaster-Sergeant.—Three bars and a tie of three bars.

For a Saddler-Sergeant.—Three bars and a saddler's round knife, handle upward. Knife of the following dimensions: handle one and three-fourths inches long, three-fourths of an inch wide near top, five-eighths of an inch near blade; blade, one and one-eighth inches deep in centre; from point to point of blade, three and one-fourth inches; centre of edge, one and one-fourth inches above inner angle of chevron.

For a Chief Trumpeter.—Three bars and an arc of one bar, with a bugle of pattern worn on caps, in the centre.

For a Principal Musician.—Three bars and a bugle.

For an Ordnance Sergeant.—Three bars and a star.

For a Post Quartermaster-Sergeant.—Three bars and a crossed key and pen.

For a Commissary Sergeant.—Three bars and crescent (points front), one and one-fourth inches above the inner angle of chevron.

For a Hospital Steward.—Three bars and an arc of one bar of emerald green cloth, enclosing a red cross.

For an Acting Hospital Steward.—The same as for a Hospital Steward, omitting the arc.

For a Company or Litter Bearer.—A brassard of white cloth, sixteen inches by three inches, on which is a red cross, two inches by two inches, to be worn on the cuff of the left arm.

For a First Sergeant.—Three bars and a lozenge.

For a Sergeant.—Three bars.

For a Regimental and Battalion Color Sergeant.—Three bars and a sphere one and one-fourth inches in diameter.

For a Corporal.—Two bars.

For a Farrier.—A horseshoe of cloth, four and one-half inches long and three and three-quarters inches wide.

For a Pioneer.—Two crossed hatchets of cloth, same color and material as the facing of the uniform dress-coat, to be sewed on each sleeve above the elbow in the place indicated for a chevron (those of a Corporal to be just above and resting on the chevron), the head of the hatchet upward, its edge outward of the following dimensions, viz: handle, four and one-half inches long, one-fourth to one-third of an inch wide; hatchet, two inches long, one inch wide at the edge.

For Enlisted Men of the Signal Corps—According to pattern in the office of the Quartermaster-General of the Army. Two embroidered signal flags, crossed, each three-fourths of an inch square, bearing in the centre a square one-fourth of an inch, one flag white with red inner square, the other red with white inner square. Flags and squares bouillon-edged; staffs three inches long, with silver spears, made up on a piece of dark blue cloth three inches square, with corners rounded off. This device to be worn by the non-commissioned officers above the chevrons, by privates of the first class on both arms, and by privates of the second class on the left arm only, in the same position as the chevron of non-commissioned officers.

Gold Lace Chevrons.—The gold lace chevrons will be of the same dimensions as cloth chevrons, stitched upon cloth of the same color as the facings of the uniform dress-coat. Those for Engineers to have stitching of white silk upon each edge of the gold lace.

To Indicate Service.—All enlisted men who have served faithfully for one term of enlistment, of either three or five years, will wear as a mark of distinction upon both sleeves of the *uniform dress-coat*, below the elbow, a diagonal half chevron of gold lace, one-half inch wide, stitched upon a piece of dark blue cloth of the color of the uniform dress-coat, and extending from seam to seam, the front end nearest the cuff, and one-half inch above the point of the cuff.

To Indicate Service in War.—A diagonal half chevron of gold lace, one-half inch wide, with piping on each side one-eighth of an inch wide, of cloth of the same color as the facings of the arm of service in which the soldier earned the right to wear it, those for Engineers to have in addition a stitching of white silk on each side of the gold lace. To be worn on both sleeves of the uniform dress-coat.

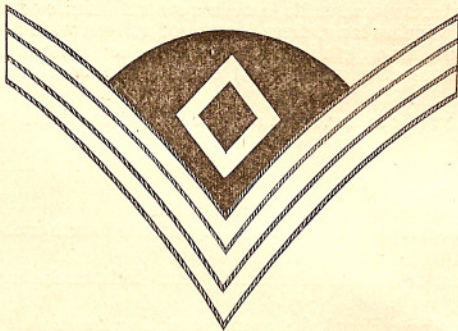

All soldiers who have served during the war of the rebellion, and who were discharged; all who have served in the Indian campaigns enumerated in general orders from the headquarters of the army; and all who have served or may serve in the Army of the United States in war, or such Indian campaigns approaching the magnitude of war as may from time to time be so designated by the Secretary of War, are entitled to wear the "service-in-war" chevron.

The chevrons to indicate service and service in war, if more than one, will be worn one above the other in the order in which they were earned, one-fourth of an inch distance between them.

But one chevron will be worn for each enlistment, the "service-in-war" chevron being worn in place of the "service" chevron for each enlistment in which the right to wear it was earned.

None of the "service" chevrons will be worn on the overcoat or blouse.

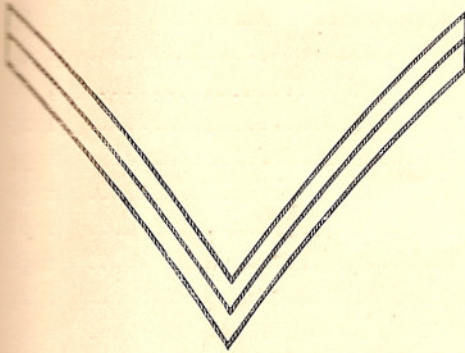

How to Order Chevrons.—When ordering Chevrons, state rank, and also state whether fatigue or dress chevrons are wanted. If Chevrons that are not U. S. regulation are wanted, they should be carefully described.

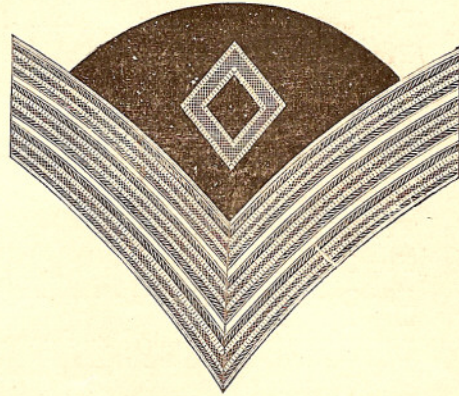

FIRST SERGEANT'S CLOTH CHEVRON.

SERGEANT'S CLOTH CHEVRON.

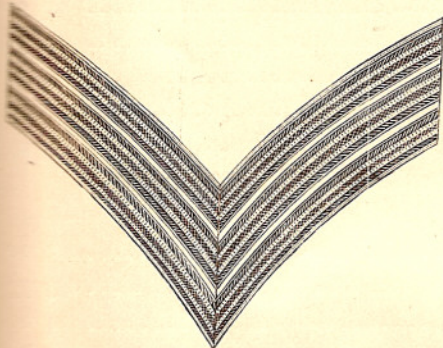

CORPORAL'S CLOTH CHEVRON.

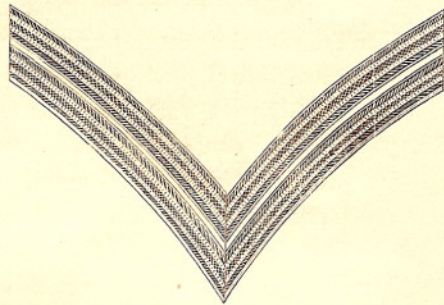

FIRST SERGEANT'S LACE CHEVRON.

No. 300F. Cloth Chevrons; U. S. regulation for fatigue blouse.

- No. 373F. Knapsacks; made of enamelled leather; per dozen..... 78 00

LEGGINGS.

No. 1.

No. 2.

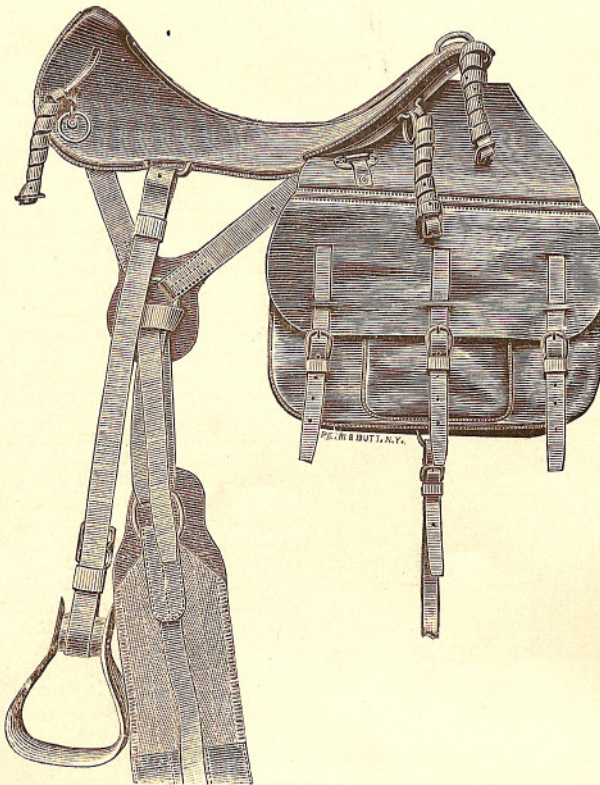

Essentials of Military Leggings. — Infantry Military Leggings should be made of *strong, durable duck*, and made straight at the top. Height is a question of preference, but *twelve* inches is ample protection. Everything about leggings should be a part of them, or fastened to them in such a manner as not to come off. They should be so made that one part will not wear out before another, and for that reason the edge must not be bound either with leather or cloth, neither must a raw edge be exposed. Buckles and straps should be riveted *into* the leggings, *not* sewed on. The fastening ought never to be *positive*, like buttons, heavy snap springs, patent glove button clasps, etc., all of which admit of no play, but the legging must

nevertheless fit exactly. The fastening should be of something that will offer the least possible resistance to brush, etc., and yet be capable of *quick* adjustment. All of the foregoing *essentials* are comprised in the patent lace Leggings adopted by the U. S. Army in 1887, and listed below as Standard Army Leggings (No. 1). The fastening consists of grommet holes, flat and smooth, in front flap, and heavy army studs in rear flap, a combination that offers practically no resistance to bushes, etc., and also "gives" with the motion of the leg, and thus renders walking easy.

- No. 1. Standard Army Leggings; made of Standard army duck, in tan or white color, with patent army lace fastening; 12 inches high.
8-ounce weight; per pair..... \$0 75
10-ounce weight; per pair..... 80

 wooden stirrups; complete..... 6 40

PISTOL HOLSTERS.

- No. 405F. Pistol Holsters; to order; per pair.....\$13 50

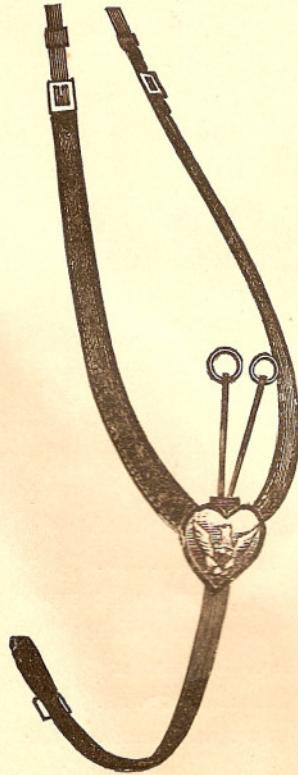

WHITMAN RUBBER-FOOTED STIRRUPS.

The Whitman Stirrup.—In whatever ways stirrups have been improved, excepting the wooden stirrup, there is only one other stirrup (the Whitman) in the market that will prevent the foot from slipping. The Whitman Stirrup is elegant in appearance, is of proper weight, and by means of a neat rubber mat countersunk in its foot-plate prevents the foot from slipping. A pair of these Stirrups may be used a good while, and then may be made as good as new by replating and substituting new rubber mats for the old ones. No person who has used the Whitman Stirrup will ever be satisfied with any other kind.

PATENTED DECEMBER 9, 1879.

- No. 405F. Whitman Stirrups; with turn foot; nickel-plated; flat legged; per pair..... \$4 50
- No. 406F. Whitman Stirrups; with stiff foot; nickel-plated; extra large; flat legged; per pair..... 4 00

- No. 432F. Military Bridle; same as No. 431F, but with two reins; each. 6 00

WHITMAN BITS.

STYLE A.

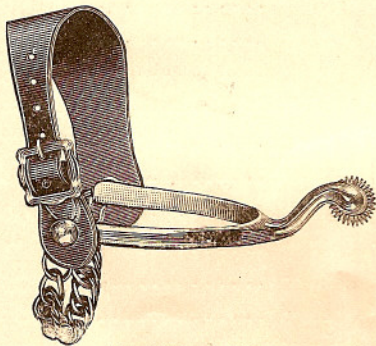

STYLE B.

PATENTED DECEMBER 9, 1879.

Points of Excellence.—The Whitman Bits, with the Whitman Snap Hook Attachment, are recommendable for their lightness, elegance, economy, and, above all, strength. They combine the common riding bit and bradoon in one. They are not hard on the horse's mouth, and at the same time they invest the rider with great power to control his horse.

Please note that we can furnish these bits with four rings, arranged for two reins with port or straight mouth, instead of two rings as shown in cuts.

- No. 440F. Whitman Bit; style A or style B; hand-forged, and nickel-plated; two rings for one rein; each..... \$4 00
- No. 441F. Whitman Bit; same as No. 440F, but with four rings for two reins; each..... 4 75
- No. 442F. Whitman Officer's or Army Bit; differing from styles A and B in its "S" like shanks; hand-forged, and brass or nickel electroplated; two rings for one rein; each..... 4 00
- No. 443F. Whitman Bit; same as No. 442F, but with four rings for two reins; each..... 4 75
- No. 444F. Whitman Bit; same as No. 443F, but full brass; each..... 6 75

Nos. 450F and 451F.

SPURS.

- No. 450F. Military Spurs; U. S. regulation; gun metal, with upper leathers and buckles, and metal heel chains, as shown in cut; per pair..... \$4 00

- No. 451F. Military Spurs; same as No. 450F, but nickel-plated; per pair \$4 00
- No. 452F. Military Spurs; brass, with upper and lower leathers; per pair, from.....\$1.50 to 2 50
- No. 453F. Spurs; McClellan pattern; solid brass, without buttons, but with double holes for straps which extend entirely around the foot; per pair..... 1 30
- No. 454F. Spurs; same as No. 453F, but nickel-plated; per pair..... 1 00
- No. 455F. Spurs; yellow metal, with strap; per pair 80

THE READY RIDING STRAPS.

Their Use.—Attached to the sole of the shoe and trousers on the inner side of the foot they are entirely concealed from view, and the trousers hang naturally. The rider's appearance is thereby greatly improved, his comfort increased, and his trousers are secured from injury. The end-hooks being connected with a spiral spring, they will fit any shoe. Longer and shorter lengths can be furnished if desired. No buttons on the trousers are necessary. The straps can be put on or taken off in an instant.

- No. 460F. Ready Riding Straps; per pair..... \$0 65

Directions for Using.—Attach the end-hooks of the Riding Straps to the shoes, and the clasps to the inside edges of the trouser legs, as shown in the cut. Make sure that the outside hooks are well in place, and also that the clasps have a good hold on the trousers, and it is well to give them an extra pinch. If the Riding Straps are too long, unscrew one hook on each and cut off some of the wire spring. To unscrew the hook, hold the end of the wire firmly with a pair of small pliers; otherwise, as the tendency of the wire spring is to bind when you attempt to unscrew the hook, you are liable to twist the whole spring out of shape. If Straps are too short, send them back and another pair will be sent in their place.

FLAGS.

UNMOUNTED SEWED BUNTING U. S. FLAGS.

- No. 482F. Flag; size 6x6½ feet; U. S. Infantry regulation; trimmed with 2-inch yellow silk bouillon fringe; silk cord and tassels; mounted on polished ash staff, with gilt screw-joint; gilt eagle; leather flag-belt and oil-cloth cover; complete..... 24 50
- No. 483F. Flag; same as No. 482F, but with gilt spear-head on staff instead of eagle; complete 22 00

SILK U. S. FLAGS, VARIOUS SIZES.

Quality of Silk.—The silk used in these Flags is made specially for us in France, and is genuine banner silk of the best quality,

Make.—These Flags are made with double-sewed seams; they are made in the most workmanlike and most durable manner. Fine gold leaf stars ate on both sides of every field.

Lettering.—Prices for lettering flags quoted on page 49.

We can furnish any of these Flags trimmed and mounted, but we quote prices only on trimmed and mounted flags of the most desirable sizes. We trim and mount such sizes in the following styles:

STYLE S. Fine yellow silk bouillon fringe, fine yellow silk cord and tassels, polished ash staff, polished gilt spear-head, oil-cloth cover, and leather flag-belt.

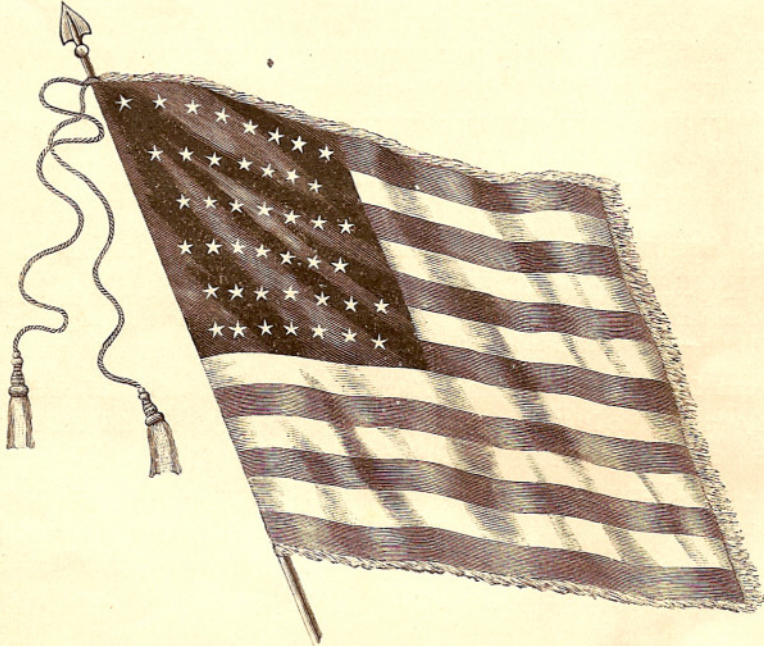

STYLE T. Fine yellow silk bouillon fringe, fine yellow silk cord and tassels, ebonized staff, with gilt screw-joint, gilt eagle, oil-cloth cover, and leather flag-belt.

STYLE U. Fine yellow silk U. S. knotted fringe (the finest flag fringe made), fine yellow silk cord and tassels, ebonized staff, with gilt screw-joint, gilt eagle, oil-cloth cover, and enamelled leather flag-belt.

STYLE V. Same as style U, but all the metal mountings extra finely plated.
